CHALLENGES

SOLUTION

Relish DATA ASSURE for SAP® Ariba® Supplier Lifecycle and Performance validates legal name, address, tax number, bank and sanctions lists, **reducing supplier data errors and improving the supplier registration process.**

-  Guarantees anti-fraud checks are happening
-  Mitigates fraud risk across the spend management process
-  Saves time, effort and focus on exceptions

BENEFITS

Fully automated supplier data validation **in one step**

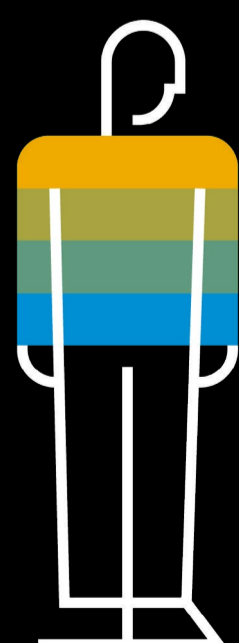

-  Real-time supplier validation means no more searching for correct supplier data
-  Ensures you are working with legitimate, trusted suppliers
-  Reduces cycle time and removes manual interaction
-  Empowers your workforce to focus on value-added activities

EVIDENCE

A global apparel retailer saved over **30 hours per month of manual effort** on tax identification number validations alone using Relish DATA ASSURE.

500% reduction in time to validate supplier data*

100% of all supplier data is screened and validated*

“ Our practice has been to manually validate supplier data on several websites. With Relish DATA ASSURE, our supplier data is automatically validated and entered into SAP Ariba. Supplier data issues are flagged and now we focus only on exceptions. This helps us prevent supplier fraud and frees our resources to focus on more strategic activities. ”
